Web Developer-PHP/Laravel

Enthusiastic Junior Web Developer with hands-on experience in PHP, Laravel, and WordPress. Skilled in building and optimizing web applications using PHP, Laravel, MySQL, HTML, CSS, and JavaScript.

WORK EXPERIENCE

AITec • Islamabad

AI Engineer Internee • Internship

- Developed and implemented a machine learning model with 95% accuracy, resulting in a 20% increase in customer satisfaction.
- Developed and delivered a comprehensive Research report on FYP project, showcasing 10% increase in user engagement.

GAO Tek Inc • Remote • 10/2023 - Present

Assistant Tech Manager

- Wrote business emails and content for the company website.
- Managed and mentored a team of interns. Conducted research to ensure content accuracy and relevance.
- Applied SEO principles to improve website content visibility.

YD Solutions • Remote • 01/2023 - 03/2024

Web Design and Development Intern • Internship

- Developed and maintained web applications using PHP and Laravel framework.
- Collaborated with front-end developers to integrate user-facing elements with server-side logic.

EDUCATION

Bs In Computer Engineering

Institute Of Space Technology • 08/2020 - 07/2024

Relevant Coursework: Embedded Systems, Operating Systems, Digital system design, microprocessors and microcontrollers, digital signal processing, digital logic design, computer architecture

FSc in Pre-Engineering

KRL Model College • Kahuta • 08/2018 - 06/2020

SKILLS

Database Management: MySQL, Firebase, SQLite

Programming Languages: HTML, CSS, PHP, Python

Git and github: Git and github, Docker

Frameworks: React, Flask, Laravel, Bootstrap, JQuery

Soft Skills: Problem-solving, Attention to Detail, Time Management, Team Collaboration, Excellent organizational skills, problem-solving

Tools and Technologies: RESTful APIs, composer, JSON, Npm, webpack, Wordpress

PROJECTS

Streamlit Application for Analyzing User Data and Sales Records

- Built a web-based application using Streamlit and Python for analyzing user data and sales records based on location.
- Implemented interactive visualizations, filters, and data insights for decision-making and reporting.

E-Commerce Web Application

Tech Stack: PHP,HTML,CSS,JS,Laravel-10,Stripe

Developed a comprehensive e-commerce application allowing users to browse products, add to cart, and make purchases.

Chat Application

- PHP (Laravel framework), MySQL, Vue.js, RESTful APIs
- Built a real-time chat application with Laravel and Vue.js. Implemented features like user authentication, private and group messaging, and message history. Utilized RESTful APIs for seamless data exchange and MySQL for storing user and chat data securely.

Task Management Application

- Developed a task management application to help users create, assign, and track tasks. Included features such as task categorization, priority settings, and deadline reminders. Utilized RESTful APIs for efficient task management and Vue.js for an interactive user experience.

Final Year Project: Jet Detection and Tracking Using YOLOv6 and Optical Radar

- Created a sophisticated system for detecting and tracking jets, utilizing YOLOv6 for object detection and optical radar for accurate tracking.
- Developed and trained a YOLOv6 model to accurately identify and track various jet models in real-time.
- Collaborated with a team to ensure seamless integration of hardware and software components, achieving optimal system performance.

Personal Portfolio Website

Tech Stack:HTML, CSS, JavaScript,React,Spring

Showcases a diverse range of web development projects, including interactive apps and unique designs. Demonstrates hands-on experience with HTML, CSS, JavaScript, Laravel, and WordPress.
